Heatwave Conditions Persist with Sporadic Rain in Chennai

Chennai

The India Meteorological Department has indicated heatwave conditions across Chennai, with above-normal temperatures continuing alongside isolated thunderstorms and brief rain spells. The overlap of intense heat and intermittent rainfall reflects slightly unseasonal weather variability, likely causing humidity spikes and minor disruptions, requiring heat precautions and flexible scheduling.

Govt Assures LPG Supply to Homes, Works to Control Shortage

The government has assured that LPG supply to households will continue despite ongoing disruptions caused by the West Asia conflict. Officials are taking steps to manage shortages, including prioritising domestic supply, increasing production, and controlling demand. Measures such as promoting PNG connections, encouraging alternative fuels, and cracking down on black marketing are also being implemented to stabilize supply. While challenges remain, authorities have urged the public to avoid panic buying and rely on official updates.
