across Tier-1 cities**

Weather: Evening Storms to Bring Heat Relief

Hyderabad

Hyderabad and several Telangana districts are expected to experience evening thunderstorms, gusty winds, and occasional hail, bringing temporary relief from the ongoing heatwave. These storms are caused by extreme daytime heat (around 40–44°C) interacting with moisture, leading to sudden weather changes in the evenings. The pattern of hot days followed by evening storms is likely to continue for the next few days, with alerts issued across multiple districts. While the rainfall may ease temperatures briefly, overall heat conditions will still remain high. Commuters should expect short-term disruptions like traffic delays, strong winds, and lightning, and plan travel accordingly, especially during evening hours.

24-Hour Water Shutdown in Pune on April 23

Pune

Pune will face a city-wide water supply shutdown for 24 hours on April 23 due to maintenance work, with supply likely to resume the next day at low pressure. Corporates are advised to store water in advance, use it wisely, and plan activities or operations accordingly to manage the temporary disruption.

Election Violence and Restrictions Heighten Security in West Bengal

Kolkata

Incidents of election-related violence between two political groups, including attacks on a candidate and vehicle vandalism, have been reported, while authorities have imposed measures such as a 12-hour bike movement ban before polling and enhanced security in sensitive areas. The combined impact is likely to disrupt local mobility and last-mile connectivity, requiring route adjustments and close adherence to advisories to manage movement during the election period.

Rainfall Forecast for Mumbai and Parts of Maharashtra, Weather Conditions Set to Shift

Mumbai

The India Meteorological Department forecasts light to moderate rainfall with thundershowers across Mumbai, Thane, and Nashik during early April due to pre-monsoon conditions, impacting residents, commuters, and businesses. Potential disruptions include traffic congestion and localized waterlogging, which may affect key IT hubs such as Bandra-Kurla Complex, Powai, and Navi Mumbai. Organizations should implement contingency plans, including remote operations, logistics flexibility, and infrastructure preparedness, to maintain business continuity.

Rupee falls 16 paise to 93.32 against US Dollar in early trade

The Indian rupee fell 16 paise to 93.32 against the US dollar in early trade due to a strong dollar and easing of speculative trading curbs by the Reserve Bank of India. Positive equity markets and foreign inflows provided partial support. For businesses, this signals higher import costs. Firms should hedge currency risks, monitor global oil prices, and manage exposure to dollar-denominated transactions.
