Scattered Violence in Phase 1 Signals Continued Election Sensitivity

Kolkata

The first phase of polling in West Bengal witnessed scattered incidents of violence, disruptions, and tension across select constituencies, highlighting persistent security sensitivities despite extensive deployment. The pattern suggests a continued risk environment for subsequent phases, where localized clashes, intimidation attempts, or sporadic disruptions may re-emerge. This may translate into tighter enforcement, movement restrictions, and heightened security presence during the second phase, requiring cautious movement planning, adherence to advisories, and close monitoring of ground developments to avoid disruption.

West Delhi Faces Scheduled Water Outage; Precaution Advised

NCR

West Delhi will face a temporary water supply disruption on April 24 from 3 PM to 8 PM due to pipeline maintenance and commissioning work on key water mains. Several areas including Dwarka, Uttam Nagar, and Janakpuri are expected to be affected. Businesses should store water in advance and plan operations to minimise disruption. Commuters and residents are advised to conserve water, avoid non-essential usage, and rely on tanker services if required during the outage.

No PUC, No Fuel: Delhi Tightens Emission Rules, Fuel Access Linked to Compliance

NCR

Delhi has enforced a strict “No PUC, No Fuel” rule, under which vehicles without a valid Pollution Under Control (PUC) certificate will not be supplied petrol, diesel, or CNG at fuel stations. The move aims to curb vehicular emissions and improve air quality, with fuel pumps directed to ensure compliance. Businesses relying on transport should ensure fleet compliance to avoid disruptions. Commuters must renew PUC certificates promptly, carry valid documents, and plan refuelling to prevent inconvenience or penalties.

India Weighs Domestic Solar Cell Mandate Amid Industry Concerns

India is reviewing petitions from solar manufacturers and developers over a proposed rule requiring only domestically made solar cells in power projects from June 2026. The move is aimed at boosting local manufacturing and reducing dependence on imports. However, developers have raised concerns about higher costs, limited domestic production capacity, and possible project delays, as India currently relies heavily on imported solar cells. The government is balancing both sides before finalising the decision, as the policy could strengthen domestic industry but also impact project timelines and renewable energy targets.

Tamil Nadu's First Expressway Segment Opens: Uthukottai–Chittoor Stretch Operational Bengaluru

The Uthukottai to Chittoor stretch of the Chennai to Bengaluru Expressway will boost connectivity and logistics efficiency, benefiting hubs like Sriperumbudur and Oragadam. However, gaps in last mile access, incomplete links, and safety concerns persist. Improving feeder roads, traffic systems, and coordinated execution is key. Businesses can streamline supply chains and reduce costs, while policymakers must accelerate and align development for long term gains.
