across Tier-1 cities**

## Storm Warning for North India; Businesses & Commuters Urged to Stay Cautious

### NCR

A fresh Western Disturbance is set to impact North India from April 7, bringing widespread rain, thunderstorms, strong winds and hail across several states including Delhi-NCR, Rajasthan and Uttar Pradesh. The system may keep temperatures below normal and cause sudden, intense weather activity in patches. Businesses should secure outdoor assets, review contingency plans and anticipate supply disruptions. Commuters are advised to plan travel in advance, avoid exposed areas during storms, and follow weather advisories for safety.

## Central Delhi to Face Traffic Disruptions Amid IPL Match on April 8

### NCR

Traffic movement in central Delhi is likely to be affected on April 8 due to an IPL match at Arun Jaitley Stadium, with congestion expected from noon till midnight. Key roads including Bahadur Shah Zafar Marg, JLN Marg and Asaf Ali Road may face diversions, while heavy vehicles will be restricted. Businesses should plan deliveries early and expect logistical delays. Commuters are advised to avoid affected routes, allow extra travel time, and follow traffic advisories to minimise inconvenience.

## Prolonged Rain and Thunderstorm Activity Expected in Chennai

### Chennai

The India Meteorological Department has issued a yellow alert for Chennai, forecasting rain, thunderstorms, and lightning through the week, with intermittent spells expected across the city and surrounding districts. The extended period of unstable weather may lead to recurring traffic slowdowns, waterlogging, and short-term disruptions to commute and outdoor activities, requiring flexible scheduling, buffer travel time, and caution in daily operations across the city.
