MEA Advisory Signals Disruptions

The Ministry of External Affairs issued an advisory highlighting evolving global risks and urging caution for Indians abroad. This may disrupt travel, supply chains, and workforce mobility, affecting business operations in sensitive regions. Companies should enhance contingency plans, monitor risks closely, ensure employee safety, and diversify logistics and markets to maintain continuity.

Domestic Crude Output Surge Strengthens Energy Security

India has significantly increased crude oil production in Rajasthan, boosting domestic output and reducing reliance on imports amid global supply uncertainties. This development supports business continuity by improving fuel availability and enhancing resilience against external disruptions. However, global price volatility may still impact operational costs for industries dependent on fuel. To mitigate risks, businesses should focus on energy diversification, efficient resource utilization, and strategic fuel planning to ensure stability.

Delhi-Dehradun Expressway to Slash Travel Time and Boost Connectivity

NCR

Businesses and commuters will soon benefit as the Delhi-Dehradun Expressway is set to reduce travel time to just 2.5 hours from over six hours, boosting business efficacy and easing congestion. The high-speed corridor is expected to enhance regional mobility and logistics efficiency. Businesses should prepare for faster supply chains and increased intercity movement, while also reviewing transport strategies to capitalise on improved connectivity and emerging opportunities along the route.
